

Educational Software Write-Up

Title: My Math App - Flashcards

Version: 2.0.0

Publisher: Power Math Apps LLC

Target Audience: 4+

Type of Software: Drill and Practice

Curriculum: This software would be great for students to use to review and refresh their memory before a quiz or test. It could also be used as a way for the teacher to check for understanding.

Possible Environment: This could be used by a single user or a small group.

Cost: Free

Describe the Software: This software focuses on the mastering of the basics of mathematics. The four operations are the main focus of the software. There are randomly generated flashcards that test the understanding of addition, subtraction, division, and multiplication. Kids can use this app with minimal supervision.

Impression of Software: We were not too impressed by this software. We believe this app is very simple and basic. It has solid information and flashcards, but it is not very exciting for the user. There is not a large variety in things to do or ways to test your understanding. We believe there are better math software out there.

Does the app pass? No
