

## Mini Lesson 4: Rhyme Time

**Grade Level:** Kindergarten

**Curriculum:** Language and Rhyming

RF.K.2.A Recognize and produce rhyming words orally.

**Tools:** Wordle & Google Forms

**Synopsis:** For this lesson, I will start by having my children seated on the carpet as a class. I will review with them what rhyming means and some rhyming words we previously discussed. I will then break them up into four groups of 5. One group will work with me and we will create a wordle using only rhyming words. They will give me words and I will type them into the iPad. When the group is done, they will each get a copy of their wordle to take home. Another group will do a worksheet that covers words that rhyme. Another group will play a game that involves rhyming words. The last group will each take a quiz on google form. The information on the quiz will deal with rhyming words and material related that we have been discussing throughout the unit. The quiz will be all multiple choice or matching. All the groups will rotate until they have finished every station.
