

App Evaluation

Title	Kids Planet Discovery!
Version (if there is one or if it is one of a series)	3.9.1
Publisher	Planet Factory Interactive
Target Audience (if your opinion differ from the publisher, state that) Type(s) of software with your justification (can be more than one and when justifying, you have to convince me not just re-iterate my words)	Kids ages 6-8. Operating this app and the content that is uses is appropriate for ages 6-8 and could even go beyond that to possible ages 10-12.
Curriculum(s) - How does it (or can it) fit into the curriculum	This would fit into a social studies curriculum.
Possible environment(s) and Why:	This app could be used in a classroom or home environment because it could be used to teach specific content in the classroom and it can be used to play for fun at home.
Cost: If there is a free version and a paid version, I want to know both: Are their costs for different licenses available and if so, what are they? In-app purchases	There is a completely free category and 6 more categories that have free version with one free game. To purchase all categories, it costs \$4.99. In-app purchases include different categories.
Write a paragraph or two describing the software: Assume I know nothing about the software. There needs to be enough description so that I can visualize this software	Kids Planet Discovery is an app that can be used to enhance or even teach some social studies lessons. You can choose from different categories such as continents, world videos, animal, and music. Clicking on a category allows student to do different activities to learn all about different cultures, this includes, memory games, puzzles, find the intruder and dress up.
Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class: Include good and bad aspects of the program and/or things that were well done. For example, navigation was easy, screen	We had a good impression of this software. It is easy to navigate, very appealing to the eye and fun! The downfall is that it costs, but since it is inexpensive, and the amount of information is so much, it may be worth purchasing. It could be used in the

design was good, sound effects were used effectively, and feedback was effective and immediate... o If you disagree on anything (from publisher or any review you see....) tell me	classroom as a fun way for students to learn about the cultures in different parts of the world.
Does the software pass?	Yes!
