

App Evaluation

Title	Math Problem Solver- 1 st , 2 nd , 3 rd , 4 th grade Math
Version (if there is one or if it is one of a series)	2.0
Publisher	HongLin Li
Target Audience (if your opinion differ from the publisher, state that) Type(s) of software with your justification (can be more than one and when justifying, you have to convince me not just re-iterate my words)	Target audience is 4+ or grades 1 st – 4 th . We agree with this age range, content seems appropriate.
Curriculum(s) - How does it (or can it) fit into the curriculum	Yes, strictly for math. It can be used to enhance math lessons for different math topics
Possible environment(s) and Why:	Can be used at home or in school.
Cost: If there is a free version and a paid version, I want to know both: Are their costs for different licenses available and if so, what are they? In-app purchases	Totally free version. No in-app purchases.
Write a paragraph or two describing the software: Assume I know nothing about the software. There needs to be enough description so that I can visualize this software	Math Problem solver is an app for grades 1 st -4 th math practice. It has topics appropriate for each grade level with different categories under each topic. You click on a grade, then a category and answer math questions.
Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class: Include good and bad aspects of the program and/or things that were well done. For example, navigation was easy, screen design was good, sound effects were used effectively, and feedback was effective and immediate... o If you disagree on anything (from publisher or any review you see....) tell me	We liked the software, it is easy to navigate and is designed with kids in mind. You get immediate feedback for a right or wrong answer and get to try again until you get it correct. There was not anything that we could find wrong with the app, maybe there should be more grade levels to choose from.

Does the software pass?	YES!
