

**Grade level/ Audience**

5<sup>th</sup> grade

**Curriculum topic**

Math

**Tools (be specific)**

- MacBook/ computer/tablet
- Notebooks
- [www.classflow.com/](http://www.classflow.com/)
- Google document

**Synopsis of what you are doing**

Students know how to do basic operations with decimals to the hundredths place. Students will use interactive websites to practice basic operations on decimals to the hundredths place. The students will individually practice adding and subtracting with decimals to the hundredths place on Class flow.

Students will write down their work in their notebooks. Students will then complete a Google Doc that has 5 questions with 5 equations to do.
