

Grade level/ Audience

5th grade

Curriculum topic

Science

Tools (be specific)

- Cue
- Computer/MacBook/ Ipad
- Pencil
- Paper

Synopsis of what you are doing

Today is Earth Day. Students are going to play interactive games on their computer, iPad, or MacBook's that deal with protecting Earth. Students will come to class ready to learn more about Earth Day and ways to help keep our environment clean. Interactive games with the cue robot are a helpful tool for students to see examples of picking up trash or even turning off the lights when you are not in the room. Students will write a paragraph at the end of class to summarize ways they can help protect Earth and its environment. (I should be able to see and understand your entire lesson by reading this. Remember, Technology is not the lesson. It enhances the lesson).
