

Grade Level/Audience: 1st Grade

Curriculum Topic: Biomes

Tools: Clips & Quizlet

Student Formation: While viewing clips, students will be individual at their desk. When using Quizlet review, students will be at the circle time carpet as a group.

Synopsis: Students will watch a Clip video over the different biomes being discussed and the animals that live there. After viewing the clip video, students will gather at the circle time carpet and we will review a quizlet the teacher created. One side of the notecard will be a picture of an animal, and on the other side will be the biome it belongs in. When a picture of the animal is shown the student will need to tell me what biome the animal belongs to.
