

**Grade Level/Audience:** 1st Grade

**Curriculum Topic:** Graphs

**Tools:** Forms & Excel

**Student Formation:** Students will be individual at their desks.

**Synopsis:** Students will create a google form with a list of their top 5 favorite foods. They will send the form to the other students in the class. The form will ask the student to pick their top favorite food. Then the student who sent the form will collect their results and create an excel spreadsheet and create a graph based off of their form results.
