

Educational Software Write-Up

Title: Mobile Learning & Study App

Version: 1.6.6

Publisher: Varsity Tutors

Target Audience: 4+

Type of Software: Tools

Curriculum: This software would be great for students to use as a study tool to prepare for quizzes and test.

Possible Environment: This could be used by an individual, a small group, and the teacher. Students could study alone using this software or as a group. Teachers could use this app to upload information and examples for upcoming exams and quizzes.

Cost: Free

Describe the Software: This software puts an outstanding amount of information at the user's fingertips. It offers a wide range of subject material. There are practice questions and even practice tests in this software. Users can also assess their general knowledge and receive feedback. It is an all in one study tool.

Impression of Software: We were not too impressed by this software. We believe this app is very complex for the elementary student. It has solid information and capabilities, but it is not age appropriate. This software focuses on the upper level learners. We felt as if this would be too difficult for young learners to operate and utilize.

Does the app pass? No
