

Educational Software Write-Up

Title: My Horse

Version: 1.34.0

Publisher: MunkyFun, Inc.

Target Audience: 4+

Type of Software: Simulation

Curriculum: This software could enhance animal science lessons. It could also introduce the idea of pet care and proper animal treatment.

Possible Environment: This could be used by a single user or a small group. Students could use this software during a science activity, a brain break, or inside recess time.

Cost: Free

Describe the Software: My Horse teaches the user about practical horse care. The user learns how to groom, feed, and treat the horse. Competitions are held for the horse where the user has to train and work with the horse to be successful. There is an in-game camera available to take pictures as if you were actually there with the horse. The software even has the option of visiting other's stables to see/take care of their horses. It does a fabulous job of making the user feel as if he or she is right there with the horse on screen.

Impression of Software: We were impressed by this software. We believe this app is very simple and user friendly. It has a step by step tutorial teaching the user how to handle the horse. Students would enjoy playing and exploring this app. It could be used during a variety of times throughout the day.

Does the app pass? Yes
