Educational Software Write-Up

Title: omoide – easy movie maker

Version: 1.1.0

Publisher: Natsu

Target Audience: 4+

Type of Software: Tools

Curriculum: This software could enhance any curriculum. Students could use this software to create a video/movie for a lesson.

Possible Environment: This could be used by a single user, a small group, or as a teacher tool.

Cost: Free

Describe the Software: Omoide makes creating a movie seem so simple. It has three basic steps to creating a movie: select style, edit title, and add cast. The user can add background music and trim the song to make it fit with the video length. Once the movie is created, there are multiple ways for the finished product to be shared with others.

Impression of Software: We were impressed by this software. We believe this app is very simple and user friendly. It uses the appropriate tools and software necessary for students to create films. There are not many tools to edit or create special effects, but overall this app would be effective.

Does the app pass? Yes
