Evaluation Write-Up

Title: Padlet

Version: 74.0

Publisher: Wallwisher, Inc.

Target Audience: Ages 4+

Curriculum: Teachers and students both could use this software. This could be used to create discussion boards, lists, documents, or to upload pictures and videos. Padlet allows the user to put his or her own touch on whatever is being created.

Possible Environment: This app could be used in any kind of environment.

Cost: Free but $8.33 charge to create after first use

Describe the Software: Padlet is an app that allows you to create a variety of documents. This varies from discussion boards to videos and lists. These things can be customized to the user's preference. Personal touches can be added by uploading their own photos, videos, or recordings.

Impression of Software: We really liked this app! We thought that it could very useful in or out of the classroom. The monthly purchase cost could be easily justified by the app's multiple uses. This app would be something we would both include in our classrooms.

Does the app pass? Yes
