

Title: Preschool and Kindergarten Games

Version: 5.0

Publisher: RosieMosie LLC

Target: The targeted age group for this app is preschool and kindergarten aged children. This app may also be used for older children, if desired. This type of software is a stimulation because it relates early learner material to a fun environment of animation and animals.

Curriculum: This app fit a large variety of curriculums including letters, numbers, colors, and shapes. It is an interactive program to engage students to learn.

Environment: This app would be great for inside and outside of the classroom environment. It would be a great activity for short periods of time, but should not be a long screen time.

Cost: This app is free with in app purchases or you can purchase the unlocked app with all of the games for free.

Description of Software: This software consist of great interactive games for young learners with great screen appearance and sounds. Games are provide to increase students understanding of basic grade level content.

Impression of Software: My impression of this software is that it would be a great way to introduce technology to young learners and know they are increasing knowledge. When you first open the app it is very interactive and exciting. The animations are children friendly and engaging. I would use this app during down time to keep students active in their learning.

Pass: This software passes the education software evaluation form because it allows easy access and appropriate content material.
