- Title: Popplet Lite

- Version: 2.2 (Updated 1 year ago)

- Publisher: Notion, Inc

- Target Audience: 4+

- Type(s) of software with your justification: This software app will be best utilized as a tool for brainstorming and organizing ideas.

- Curriculum(s) - We decided that you could use this app as a brainstorming map for any all all subjects. It would not be hard for a teacher to determine the subject matter and allow students to brainstorm from that.

- Possible environment(s) and Why: This app would be considered a teachers tool and a single user app. The teacher would set the guidelines and follow productivity of the students and the students would be utilizing the app in a one person activity. You could use this in a group forum as well.

- Cost
  -The app was free for us to download
  -The app was the Lite version and it had no in-app purchases but there are other forms of the app that cost $4.99 to download.

- Write a paragraph or two describing the software
  -Popplet Lite is a software designed to allow someone to put their thoughts out to see and review in an organized manner. This app is great for students to organize their thoughts on a writing topic or brainstorm ideas to write about. The app allows you to create an unlimited amount of brainstorms if you buy the full version for $4.99.

- Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class
  -We found this software to be very useful and efficient. We liked that it had many different design options and colors to choose from, this allows students to express themselves. The app that we viewed is the lite version and it only lets you create one brainstorming idea. After that you are required to pay the $4.99 to have unlimited brainstorming webs and popplets.

- Does the software pass
  -Yes, The software does pass by our standards. We really enjoyed this app and its creative aspect that it offered. We see ourselves utilizing this app in our future classrooms.
