

Birthday Graph

Grade – 1st

Subject – Mathematics

Tools – Google Forms and Excel

Synopsis – Students will first fill out a google forms with their name and birthday. They will also add their favorite candy in the form as well. They will go into my excel spreadsheet that is shared with them and graph which month they were born in and what the favorite type of candy is. After everyone has completed this, we will have a classroom discussion on how many people were born in each month and what the most popular candy is. The next day I will bring in the student's favorite candy as a surprise for a job well done.
