

Graphic Organizer

Grade – 1st

Subject – Language

Tools – Google Forms and Graphic Organizer Maker

Synopsis – I will give my student a prompt to an essay. I will send out a Google Form for them to fill out. They will add ideas to put on our graphic organizer. Once everyone has completed the form I will project a graphic organizer maker on the screen. We will go over all of the answers given in the form and decide as a class which ones we want to use to create our graphic organizer. We will fill out a graphic organizer together to get my students familiar with filling one out. This will help them in later grades as well.
