

## **On-Line Safety**

**Grade** – 1st

**Subject** – Reading

**Tools** – Padlet and YouTube

---

**Synopsis** – At the beginning of the semester I will discuss online safety in my classroom. I will read the students a book on how to be safe online. I will also show them a YouTube video on how to use technology in the classroom safely. I will then give my student's access to a Padlet that I was created prior to the lesson. They will be instructed to go through the Padlet and read through the different websites listed. This will give the students more information on how to be safe on line.
