

**IT'S ALL  
ABOUT THE  
MONEY  
MONEY  
MONEY!!!**

Dear Parents,

As you all have been taught before, your child will be soon learning about the different coins and what each is worth. Along with this lesson, they will also be learning the importance of place value. I ask, that when you go shopping with your child, to point out the price of different items and show them how you count out money. This will help your child with a better understanding.

Thank you,

Mrs. Oldman
