

# Welcome to Third Grade

Miss Alexis' AUP

## RESPECT

- I.) Always be respectful to our friends.
- J.) Give full attention to listening when others are talking.
- K.) Stay on task and follow all given directions.

## EFFORT

- G.) You must at least put in effort/try before asking the teacher for help. Maybe ask a classmate first.
- H.) As long as I notice the effort put into the assignment or making friends, we will have an amazing year!

## Attitude

- D.) Positive vibe zone only!
- E.) Only kind words that uplift/help each of our friends will be tolerated.
- F.) NO BULLYING IS TOLERATED!!!

## COLLABORATION

- B.) My friends will work quietly in their pods/groups when given team assignments.
- C.) My friends are to work kindly, respecting each others ideas, and bring forwards their own ideas.

## Honesty

- A.) Honesty is the best policy in the classroom. Being honest with the teacher and our friends helps build trust and responsibility.

## Technology in the Classroom

### 5. Clean Hands

- Always wash hands before using the ipads or computers.

### 4. Only Educational Programs

- Only educational games and programs I have downloaded will be allowed to be used.

### 3. Technology Stays on Desk

- Always keep the computers/IPads on the desks. If for any reason my friends have to move the technology, always use two hands.

### 2. Set Technology time

- Whether its technology free time or as a class we are using the technology, there will always be set technology time.

### 1. Use assigned Technology

- All of my friends will be assigned a specific number, that number is the number Ipad/computer that they will use only. There is no technology that should be shared.

In my class we address each other as friends. This helps to build relationships and know that we are all friends. I encourage parents to sit down and explain what a friend means to them as well as go over the classroom rules so there are no surprises to students. For the students, I do tons of group based projects, however, on individualized assignments whether it's a technology based assignment or not, I do not tolerate plagiarism or cheating. Students will have plenty of assigned projects to show their originality this year.
