
Third Grade Learning

- Version: Unable to locate
- Publisher: RosiMosi LLC
- Target Audience: Age group would be 4 years but made for ages 6-8
- Curriculum: This app would fit perfectly into math, science, and language curriculum with the ability to select which subject area is being worked with.
- Cost: The app is free to download, but only offers 1 lesson game per math, science, or language. You must purchase the app for 3.99 for all other lessons.
- Describing the Software: This a great app that keeps students entertained while learning. Each tab is packed with great drill and practice learning games.
- Impressions of the Software: Easy to navigate and explore. The 'lite' version did not give much but it is a very inexpensive app to get all lessons. Enjoyed getting a refresher over the topics with the 3 free games the app did provide.
- Pass: This software does pass because everything inside the app was informative and educational without supervision at all.
