

## Lesson 4 PowerPoint & Kahoot!

8<sup>th</sup> Grade Social Studies/Arkansas History

Tools: PowerPoint, iPad or Chromebook, & Kahoot!

The object of this lesson is to engage students with a PowerPoint of videos, facts, and images related to specific aspects of Arkansas history. The PowerPoint presentation will be displayed on the smartboard in front of the class as a group activity. I will have a premade Kahoot Quiz to use with the PowerPoint. As we move through the PowerPoint, I will ask students questions via the Kahoot app and they will answer individually. This will allow me to assess their comprehension as I teach. Students will use their iPad or Chromebook to access Kahoot and interact with me and their classmates.
