A Note About Plagiarism

Though it may not seem important now, plagiarism is the act of copying someone else's work or taking someone else's work and claiming it as your own. I strive to teach my students early about this important topic to prepare them for later grades. Students should also know that many things on the internet are copyrighted and cannot be used without credit to the creator.

Further information can be found on our classroom webpage.

Classroom Contract

By signing and initialing below, my student and I understand the classroom, technology, and internet rules on the previous page, and the consequences for breaking them. We have also reviewed the note about plagiarism and are ready to have a **great year!**
