

Title: Power Thesaurus

Version: 2.1.8

Publisher/ Creator: Radyushin Pty Ltd

Target Audience: Anyone who can read pretty much

Types of software: Discovery Learning because

Curriculum: This would be a great resource for students to use when looking for similar and opposites of words. This would work great in my classroom for when making connections.

Cost: Free

Description: Is filled with millions of synonyms and antonyms and is sorted by rating, alphabetical, number, and length. Along with the pronunciation.

Impression: I could just use a regular thesaurus but with the world of technology, I have to go with the times. But it also gives a verbal pronunciation which could be beneficial for my students to learn new words.
