

## Mini Lesson 4: PowerPoint and Splice Video Maker

**Grade Level:** 3<sup>rd</sup> Grade

**Curriculum Topic:**

E.4.3.2: Identify problems, alternatives, and trade-offs involved in making a decision.

**Tools/Technology:** For this lesson, I will be incorporating PowerPoint and Splice Video Maker.

**Synopsis:** Students will get into groups of four and will be assigned to create a short PowerPoint. The PowerPoint should include the problems, alternatives, and trade-offs involved in decision making. Each student will work individually on two slides, and then they will put them all together. The students will also plan and create a short skit using the Splice Video Maker. In the skit, the students will demonstrate an example decision making and will identify the problems, alternatives, and trade-offs that were involved. One student will video the skit, while the other members of the group are the actors.
