Did the software crash?		X	
Was the content appropriate? Did it meet the user's needs?	X		The content was appropriate, especially if the students were learning about coding.
Were the screens appealing? • Color, items on screen, sounds ……	X		The screen color and sounds were appealing. The sounds weren't dramatic but were subtle when you clicked on something in the app.
Is it easy to navigate?	X		The app is very easy to navigate.
Is it easy to learn?	X		The app was easy to learn because it has a tutorial on the side of the screen teaching you what to press if you aren't sure how to code.

Does the user need Supervision to use		X	This app was kid-friendly so supervision isn't necessary
If the App required a response, was it appropriate? (right or wrong)	X		
Were there bells and whistles? • If so, do they enhance instead of detract? • If not, should there be?	X		Hopscotch had a lot of bells and whistles that enhanced the app. There were also several different tutorials students could choose to teach them how to code.
Did you like using the App?	X		
What was the cost? • Was there a "lite" version 　○ If so, was it enough	X		The version we downloaded was free.
Were there in-app purchases? • If so, what were the additional costs?	X		To get a subscription, it costs $7.99 per month, or $79.99 for an entire year's subscription.
How does it compare to other apps that do the same?	X		Compared to other coding apps, I feel like this app does a great job of keeping the

			students engaged and learning about coding without overloading their brain with too much information at once.
