

Title: Kids Planet Discovery

Version: 3.9.1

Publisher: Planet Factory Interactive S.L.

Target Audience: The app is targeted for ages 4 years and older, although the app suggests that users be of ages 6-8. We feel that any younger elementary student could benefit from Kids Planet Discovery.

Type of Software: Kids Planet Discovery is a Discovery Software because the user determines what to learn by exploring throughout the app. The user has the ability to “travel” around the world and learn about those places.

Curriculum: The app allows students to learn about different countries around the world, along with animals, music, geography, and so much more. The app could allow students to be very interactive and engaged in any curriculum lesson.

Cost: The app is free, but does ask for in-app purchases later on after use. There is an option to buy the following add-ons: Planet Animals, Planet Music, Puzzle Maps of Countries, Planet Culture, Culture Videos, and Video World. All of which are a one-time fee of \$1.99 each. There is an option to purchase all for a one-time fee of \$4.99, which seems to be a pretty good deal.

Software Description: Kids Planet Discovery allows children to play games and activities. The app allows virtual adventures of different parts of the world, along with animals, music, culture, and puzzle maps. The app thrills kids with more than one hundred countries to explore throughout.

Software Impression: The app is very enjoyable and easy to navigate. With all the different features and colors, it makes for an engaging app that children can benefit from. The app also does not need supervision and is completely safe for children to be on.

Does the app pass? Yes
