**Title:** Kodable

**Version:** 11.3.1o

**Publisher:** SurfScore Inc.

**Target Audience:** The app is targeted for ages 4 and up, although we feel that 6-8 years of age would be best.

**Type of Software:** Kodable is a Drill and Practice and Tutorial because a problem is presented and also some information is previously learned.

**Curriculum:** The Kodable app is coding related and users can learn a lot of new information about coding.

**Cost:** The app offers a seven-day free trial, but after that the normal version is a monthly fee of $6.99. There is also a Parent plan of a one-time fee of $29.99, but offers a free three-day trial. The Kodable monthly plan is $6.99 a month.

**Software Description:** The app allows students to decorate their own world inside od Kodable. The user is able to earn coins also. Most of the information on the app is already learned information that children are able to practice.

**Software Impression:** Overall, the app was really neat and easy to navigate/use. The app was easy to learn. The app could be used for students during centers and may be during a break time. We feel that the app is so much fun that children wouldn't even realize they are learning.

**Does the app pass?** yes
