

## Write Up Layout 1:

- Title: Padlet
- Version: 72.0
- Publisher: Wallwisher, Inc
- Target Audience: 4+
- Curriculums: communication/discussions
- Possible Environments: opinion forums, blogs, Q&A, writing prompts, collecting feedback, professional development
- Cost: free
- Description: Padlet is a digital canvas to create beautiful projects that are easy to share and collaborate on.
- Impressions & Implications: Seemed like too much work for little to show for it.
- Does the Software Pass: no  
There are in app purchases

## **Write Up Layout 2:**

- Title: Explain Everything
- Version: 5.2.3
- Publisher: Explain Everything sp. Z o.o.
- Target Audience: 4+
- Curriculum: taking notes, voice record, sketch, graphic organizers, collaborations
- Possible Environments: classrooms, meetings, learning organizations, professional development
- Cost: Free for 30 days \$12.99 per month
- Description: Explain Everything is the most innovative online whiteboard. Start transforming your virtual collaborations on iOS and then take it to the web and beyond!
- Impressions & Implications: this would be great for brainstorming and taking notes
- Does the Software Pass: Yes
- There are in app purchases

### **Write Up Layout 3:**

- Title: QR Code
- Version: v1.0.1 (6)
- Publisher: CYS Creative
- Target Audience: 4+
- Curriculum: scanning a qr code to receive homework, scanning a qr code to take attendance, scanning a qr code to take students to certain website, scanning a qr code at a store for discount, scanning a qr code on a brand for more information
- Possible Environments: classroom, grocery store, home, meetings
- Cost: free
- Description: QR Code Reader is the fastest QR scanner and is extremely easy to use. You just point to QR code you want to scan and the app will automatically scan it. This app also allows you to generate QR codes.
- Impressions & Implications: this would be a great way to take attendance in your classroom if each student has an iPhone or iPad.
- Does the Software Pass: yes

#### **Write Up Layout 4:**

- Title: Total Recall
- Version: 5.0
- Publisher: Michel Neuhaus
- Target Audience: 4+
- Curriculums: Graphic Organizers
- Possible Environments: School, Meetings, any brainstorming
- Cost: free
- Description: Total Recall is the simplest and most elegant mind mapping solution on the iPhone and iPad. You will instantly create beautiful mind maps and share them with colleagues and friends.
- Impressions & Implications: This app is almost identical to Inspiration
- Does the Software Pass: yes
- There are in app purchases

### **Write Up Layout 5:**

- Title: Brainpop
- Version: 3.1.9
- Publisher: BrainPOP
- Target Audience: 4+
- Curriculum: cross-curricular digital content
- Possible Environments: Anywhere!
- Cost: free
- Description: Help kids understand their world with BrainPOP Featured Movie App. Our animated movies engage via narrative, humor, and characters who speak in a voice kids can relate to, encouraging self-directed learning and further exploration of the world around them.
- Impressions & Implications: This is a great way for kids to learn something new or get a better understanding of something. It is fun and interesting all while being educational and resourceful.
- Does the Software Pass: YES
- There are in app purchases

## **Write Up Layout 6:**

- Title: Move the Turtle: Learn to Code
- Version: 1.5.1
- Publisher: Next is Great Sp z o.o.
- Target Audience:4+, Made for ages 9-11
- Curriculums: Coding and Programing
- Possible Environments: School or home
- Cost: \$3.99
- Description: Move the Turtle is an educational application for iPhone and iPad that teaches children the basics of creating computer programs, using intuitive graphic commands.
- Impressions & Implications: This was hard for me to grasp, so it will probably be hard for a child. It would be better if it had a tutorial or more implicit instructions.
- Does the Software Pass: No
- No in app purchases

### **Write Up Layout 7:**

- Title: Swift Playground
- Version: 2.1
- Publisher: Apple Inc.
- Target Audience: 4+
- Curriculum: experimenting with code
- Possible Environments: classroom, at home
- Cost: free
- Description: On this app, you solve interactive puzzles in the guided “Learn to Code” lessons to master the basics of coding, while additional challenges let you explore code and create programs that are engaging and unique.
- Impressions & Implications: This could be used to introduce coding to students, or to help better their skills in the subject.
- Does the Software Pass: Yes

### **Write Up Layout 8:**

- Title: Hopscotch Coding for Kids
- Version: 3.32.1
- Publisher: Hopscotch Technologies
- Target Audience: 4+ Made for ages 9-11
- Curriculum: Programming and Coding
- Possible Environments: School and home
- Cost: free
- Description: Hopscotch is an award-winning coding tool for kids aged 9-13. Learn with tutorials, and build anything you can imagine! Then publish your game for other kids to play.
- Impressions & Implications: This is a great way for kids to be introduced into coding and programming. It is fun and easy to understand.
- Does the Software Pass: Yes
- There are in app purchases

### **Write Up Layout 9:**

- Title: ClassDojo
- Version: 5.14
- Publisher: Class Twist Inc.
- Target Audience: 4+
- Curriculums: reinforcement, behavioral, and classroom management.
- Possible Environments: School and Home
- Cost: Free
- Description: ClassDojo is a beautiful, safe, and simple communication app for teachers, parents, and students. ClassDojo helps teachers build a positive classroom culture by encouraging students and communicating with parents.
- Impressions & Implications: I can not think of a more efficient way to keep up with student's behavior and communication with parents! I will definitely use this in my classroom. I have actually used this to keep up with my little brothers behavior in school and I loved it.
- Does the Software Pass: Yes
- There are in app purchases

### **Write Up Layout 10:**

- Title: Khan Academy Kids
- Version:1.2.1
- Publisher: Khan Academy
- Target Audience: 4+ Made for ages 0-5
- Curriculums: Reading, writing, language, math, social-emotional development, problem-solving skills, and motor development
- Possible Environments: anywhere
- Cost: free
- Description: Khan Academy Kids is a free, fun, educational program with thousands of activities and books that will inspire a lifetime of learning and discovery for young children.
- Impressions & Implications: This app is not only super cute, but it is fun and educational. I would not only allow my students to play it, but my own kids as well.
- Does the Software Pass: yes
- Yes there are in app purchases

### **Write Up Layout 11:**

- Title: ABC Games for Kids
- Version: 3.51
- Publisher: Cubic Frog Apps
- Target Audience: 4+ made for ages 0-5
- Curriculum: Alphabetic principle
- Possible Environments: Anywhere
- Cost: Free
- Description: Great set of alphabetic learning games and ABC flashcards for kids to learn English alphabet and their names, tracing alphabet letters both upper and lower case, alphabet sounds, alphabet phonic and a very unique alphabet song.
- Impressions & Implications: This would be great practice for students who are beginning to learn concepts of the alphabetic principle
- Does the Software Pass: yes
- There are in app purchases

## **Write Up Layout 12:**

- Title: Boggle with Friends word game
- Version: 11.30
- Publisher: Zynga Mobile
- Target Audience: 4+
- Curriculum: Spelling and Word Recognition
- Possible Environments: Anywhere
- Cost: Free
- Description: Bring the fun of family game night with you on the go with Boggle With Friends game. This new take on the classic board game Hasbro is loaded with fun new modes, daily challenges, and puzzling twists!
- Impressions & Implications: This could be a fun brain teaser for students to play, it would really make them think! It would increase their vocabulary and coding and decoding skills.
- Does the Software Pass: yes

### **Write Up Layout 13:**

- Title: Kids Planet Discovery
- Version: 3.9.1
- Publisher: Planet Factory Interactive S.L.
- Target Audience: 4+ Made for ages 6-8
- Curriculums: Culture, Geography, Animals, Music through puzzles, videos, memory matching games, music, and more
- Possible Environments: Anywhere
- Cost: Free
- Description: Let your kids have fun discovering the world with games and activities in Kids Planet Discovery. Kids Planet Discovery sends kids off on virtual adventures around Planet Earth, giving them the chance to learn about cultures, animals, music, dress, geography and more.
- Impressions & Implications: The appearance was very intriguing and educational. The activities are fun for all ages and would be great for kids.
- Does the Software Pass: yes
- There are in app purchases

## **Write Up Layout 14:**

- Title: Pepi House
- Version: 1.0.53
- Publisher: Antanas Marcelionis
- Target Audience: 4+ Made for ages 0-5
- Curriculums: Exploration of simulations of daily routines and everyday discoveries
- Possible Environments: Anywhere
- Cost: Free
- Description: Pepi House is a fun and safe educational game for kids about daily life in a household. Pepi House is a digital version of a classical toy- a doll house. We designed Pepi House to be as reminiscent to real life toys as possible, but the digital element allowed us to offer something even more. In this version of a game, you can experience it all for free.
- Impressions & Implications: This is a fun simulator for kids to play with. A child may get bored quickly unless you pay for the full version because you run out of things to do on the free level
- Does the Software Pass: yes
- Yes there are in app purchases

### **Write Up Layout 15:**

- Title: StoryFab
- Version: 1.20
- Publisher: Spooklight SA
- Target Audience: 9+
- Curriculums: Movie Making
- Possible Environments: Classroom and Home
- Cost: Free
- Description: Using augmented reality, with Storyfab all the world's a stage! Transform your bedroom, your living room, or your garden into your next movie set. Use virtual actors, enhance your set with props and decors to add special effects.
- Impressions & Implications: This app has great potential and would be awesome for introducing movie making to students.
- Does the Software Pass: yes
- No in app purchases
