Grade: Third Grade Students

Topic: Social Studies

Technologies:

QR Code Scavenger Hunt http://www.classtools.net/QR/index.php

Powtoon https://www.powtoon.com/home/

Synopsis:

I will create a QR Code scavenger hunt that takes the students through the history of our nation's presidents. To do the scavenger hunt students will use the classroom set of iPads and they will be in partners. Each Code will have a question students will have to answer about a president before they continue. After every pair of partners has completed the scavenger hunt, they will stay in their pairs and go to the powtoon tool. On Powtoon they will make a presentation over their favorite president they learned about during the scavenger hunt and present them to the class.
