

Digital Citizenship Mini Lesson

This lesson will cover Language Arts/Reading and will be for kindergarten students. The tools used for this lesson will include the tools If You Give a Mouse an iPhone and Padlet. The students will be read the book, visit the digital citizenship website, cover the content, and then will create a class Padlet that incorporates the 9 elements of digital citizenship in a way that they can understand them. Each contributor will be assigned one of the 9 elements and we will discuss the content as a class and compare the similarities and differences between the 9 elements.
