

Integrated Movie Storyboard

Introduction

- Explain the activity and how it relates to the lesson

Materials

- Pringles can
- Mirror paper
- Ruler
- Pencil
- Scissors
- Markers
- Drill or screwdriver (adult use only)

Steps

- If not done already, empty out the contents of the can and make sure to wipe the inside clean of crumbs
- Have an adult make a hole in the bottom of the can with a drill or screwdriver
- Flip the mirror paper over horizontally with the non-shiny side face up and use the ruler to measure three sections that are 6 centimeters each and use the scissors to carefully cut the sections
- Place the sections of mirror paper into the pringles can so that it forms a triangle with the shiny side facing inward
- Use markers to color shapes or design onto the lid and then place the lid back on
- Put kaleidoscope up to your eye and slowly turn it

Conclusion

- Review and explanation
- Show my finished kaleidoscope
