Tool Name	URL	Description	Use
Piktochart	https://create.piktochart.com/dashboard	With Piktochart you can create infographics, presentations, and printable forms/flyers. Membership is free and there are a number of cool templates to use or you can start from scratch to create your own.	Piktochart could be used by teachers and students to create presentations for their class, for creating infographics for any subject, and for creating forms to send home or flyers to post around the school.
Storybird	https://storybird.com/	Storybird is a great tool that teachers and students can use. It allows you to choose from artwork and write your own story or poem, you can even write chapter books and it provides all the artwork. You can also read stories created by other users. A teacher can create a classroom and add students to assign work	Teachers can use Storybird to assign creative writing to their students. They can create any story about any topic they wish starting with either the illustrations to choose from on the site or starting with their own story and then adding illustrations from the site to their story. Students are able to submit their work in

		and keep up with grades.	the classroom that the teacher creates in Storybird.
Easy Test Maker	https://www.easytestmaker.com	Easy Test Maker is an online tool that teachers can use to create any type of test or quiz they wish, students just log in and enter and access code to take the test. Teacher will get results on the website. These can be multiple choice, short answer, essay, and types of questions the teacher wants to add. Students and teachers can sign up for free.	Uses in the classroom can be endless. Teachers can use the easytestmaker tool to create a test or quiz in any subject. This allows for quick and easy access for students to take tests online from any computer so long as they have the access code. This saves paper!

School Flyer Example for Piktochart Use:

Storybird Use Example: (I just started my own story, it is not finished)

[A Long Night's Walk](#) – Click here!

Easy Test Maker Use Example: (I just created a 5 question Addition Quiz)
