Math- Order of Operations

Specdrums and Padlet

**Synopsis:** Students will be assigned a worksheet on Padlet. The worksheet will consist of order of operations problems. Students will be paired up and assigned Specdrums. Students will take turns playing the Specdrums. Each color will be assigned to a different operation. Students will determine which operation must be completed in correct order and choose that color. Students will record their answer on a word document and answer the questions from the worksheet. Students will then turn in those word documents into the Padlet assigned.
