App Title: River Crossing IQ Logic Puzzles & Fun Brain Games

Publisher or Producer: Abd alhameed Alhinbazly

Version of App: 1.1.1

Target Audience: 4+, but we would recommend it for 6+

Type(s) of Software: Problem Solving – This app presents a problem for the users to solve by incorporating it into a fun game of crossing a river.

How does it fit into the curriculum? It allows users to think critically in order to accomplish the task.

Cost or in-app purchases: Free, but user may have to make an in-app purchase to unlock more levels.

Description of the Software: The goal is to cross the river in a short amount of time with as few moves as possible. Each level has instructions on how to cross the river, how many and who can go at one time. If you cross the river in a short amount of time and with as few moves possible, you get three stars (the maximum amount). If you do not cross in a timely manner or with as few moves possible, you will only get one or two stars.

Impression of the Software: This software is great for problem solving skills and critical thinking. It also allows the users to make mistakes or even start over. If you press the light bulb, it will give you a hint to solve the problem. This app was very impressive. It could definitely be used in a classroom as a fun game to play during students' free time.

Does the software pass APPS: Yes
