

## Environment Selfie

Grade Level: 2<sup>nd</sup>

Curriculum: Science 2-LS4-1 Make observations of plants and animals to compare the diversity of life in different habitats.

Tools: Goodnight Selfie & iPad

Synopsis: For this lesson, I would begin by reading Goodnight Selfie, to my students. I would then discuss the various animals and habitats that can be found on our schoolgrounds. I would tell my students that just like the main character in our book, we were going to take “selfies” and “elsies” with different plants and habitats, maybe animals if we are lucky, and document the different diverse lifeforms we can find.
