

Our Class Culture in Art

Ms. Carinna's 5th Grade Class

The background features a complex, abstract design. It consists of numerous overlapping, semi-transparent shapes in a variety of colors including red, blue, green, yellow, and purple. These shapes have a wavy, organic quality, resembling liquid or smoke. Overlaid on these colorful forms is a pattern of fine, concentric lines that form a shape reminiscent of an open hand or a starburst, with its center located near the top of the frame. The overall effect is a vibrant, layered composition.

Throughout the Semester, our class has learned about culture through art, so we decided to make our own statement about culture through art.
