

Mini Lesson 1

1. 4th grade
2. Science (Anatomy)

4-LS1-1 Construct an argument that plants and animals have internal and external structures that function to support survival, growth, behavior, and reproduction.

3. Anatomyyou App <https://anatomyou.com/en/> : Students will use the Anatomyyou app to discover and explore different body systems discussed in class.

VR Headset: Students will pair the app with a headset and use the virtual experience to enhance the lesson.

4. I will integrate technology into this lesson using the Anatomyyou app and a VR Headset.

In class, we will discuss the body systems and talk about their characteristics. Then, I will integrate technology by having them get into small groups of three and use the VR headsets and app to explore each of the body systems on their own. This app is great for exploring the body and gives a very realistic experience. The students will take notes of the characteristics of each body system that they observe through the virtual experience.
