

Reading and Writing Numbers

Grade Level: Kindergarten

Curriculum Topic: Math

State Standards: AR.Math.Content.K.CC.A.3 Read, write, and represent numerals from 0 to 20

Tools:

- Class set of WipeBooks
- Number PowerPoint

Synopsis: Before the lesson a PowerPoint that covers numbers from 0-20 will have to be created, these slides will include the number, how to spell the number, and a photo that shows the number off (For the number 2 for example it can be a photo of 3 cats). When we are ready for the lesson pass out WipeBooks to all of the students in the classroom and have the PowerPoint ready. Ask students to write the numbers starting at 0 on their WipeBook, have the students flip the boards to show the teacher before erasing their answers. After everyone has shown an answer show the corresponding numbers PowerPoint slide and explain more about the number! Continue this until you reach number 20 and complete the mini lesson!
