

Sight Words and Spelling

Grade Level: Kindergarten

Curriculum Topic: Language

State Standards:

- RF.K.3.C Read common high-frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does) (Sight words)

Tools:

- Kahoot!
- Smartboard
- Classroom set of iPads

Synopsis: I will create a Kahoot! that revolves around the classes sight words for the week. The questions will cycle through and ask for the correct spelling of each word and the meanings of each word. Once the class is in the room and the lesson is ready to begin the students will grab a class iPad one table at a time and get onto the Kahoot! site, the code for the quiz will be displayed on the Smartboard. Once every student is in the Kahoot! lobby we can begin! The questions will appear on the Smartboard and the students will select the answer they see is fit on their iPads, Kahoot! does not show who answered wrong so students will not be publicly embarrassed for missing a question! This is a great form of Drill and practice when it comes to sight words. This would be a good activity to hold at the end of each week but a new Kahoot!

quiz would have to be created weekly to match the weekly sight words. Students who win first place on the leader board will get a small prize, maybe a piece of candy or a small eraser!
