

4 Ways to use iMovie

1. iMovie could be used to create slideshows of the students work throughout the year. It could be used for an end of the year type thing, as a way of looking back on the students work.
2. It could also be used a presentation project; students could work on this as a group and use it as a means of presenting it to the class.
3. It could be used at the beginning of the school year. The teacher could use it to break the ice between her and her students. It can provide important information about her.
4. iMovie could also be great in proving how-to videos for the students. The teacher can create tutorials for the students in a step by step process.
