## DESCRIPTION OF APP:

This is an educational software for young children to use before they can read. They learn to code games by simple select and drag techniques. The children need to use critical thinking to be able to code a game successfully.

## OUR REVIEW:

The software seems fun and engages the children in critical thinking. It is user friendly and the user does not need to know how to read or write to be able to use it. It is simple. All the user needs to do is select and drag the arrows to design the games path. In the class, the students may use it to learn about algorithms in a simple and fun way.

## TYPE OF SOFTWARE/ ENVIRONMENT:

**Software:** It is a problem solving software. The child needs to use critical thinking to solve the problems.

**Environment:** Single user and mobile environment. The children could use it on their own to create and play games.

## CURRICULUM:

It can teach children critical thinking to solve problems. It teaches computer science to young children.
