

History for Kids: All Civilizations Learning

Version 1.2

© Planet Factory Interactive S.L.

- **Target Audience:** This app allows mid-level children to explore our history through interactive games and activities.
- **Types of Software:** This app is compatible with all devices, however, it might work best using an iPad. History for Kids is designed for individual use but it can also be used in pairs.
- **Curriculum**
 - This app would benefit teachers who focus on Social Studies or History. It can be used to inform students about The Inca Empire, The Aztec, Prehistory, History of Japan, History of China, and many other topics.
- **Cost:** This app is free.
 - \$9.99- To buy all civilizations
 - \$1.99- To buy civilizations individually
- **Description of software:** History for Kids is a great way for students to discover the Ancient World by playing games and adventures that explore different parts of our history. The graphics are very informative which makes learning this topic more exciting.
- **Impressions of software:** History for Kids is a wonderful tool that informs students about our history. Its features are very interactive and appealing. Even though some things are wordy, this app is a great way to teach students about the many different types of civilizations from history.
- This app passed our software evaluation.
