Version 1.39.4

© Instashot Inc.

- Target Audience: This video/photo editor app is comprehensive and fun for children. It would most likely be recommended to mid-level students.
- Types of Software: This app is compatible on any device but works best when using an iPad. Inshot can be used individually, in small groups, or even as a whole class.
- Curriculum
  - This app would be perfect to edit photos or videos for student's projects. Giving children the opportunity to add voice-overs or sound effects to videos, merge videos, or add borders and effects to pictures is a very good tool to engage students learning.
- Cost: This app is free.
  - Inshot Pro (1 month)- \$3.99
  - Inshot Pro (1 year)- \$14.99
- Description of software: Inshot is a great app for children to edit photos and/or videos of their choice. It lets students to be as creative as they want by adding special effects that other apps may not offer. All the effects are cute and fun, and many children would enjoy using the voice-over effect.
- Impression of software: Inshot is a good tool for students to play around with, however, there are many other apps that do the same thing, if not more. Even though this app was appealing, recommending another app similar to this one would be suggested.
- This app passed our software evaluation.
