Version 19.6

© Tappity, Inc.

- Target Audience: This app teaches mid-level students a variety of Science Standards that involve interactive lessons that can be fun, educational, and engaging.
- Types of Software: This app might be best used on an iPad. It can be used individually, in pairs, or small groups.
- Curriculum
  - This app would be perfect to utilize in a Science classroom. It covers many popular topics such as: Space Science, Life Science, Earth Science, and Physical Science.
- Cost: This app is free.

    Subscription plans include:
  - $7.99/month
  - $14.99/3 months
  - $149.99 for a one-time lifetime purchase
- Description of software: Science for Kids provides children with unlimited access to hundreds of interactive lessons, videos, games, and experiments. It also provides discussion questions that are perfect for testing gained knowledge. Students earn a degree once they have completed a "Science Word" which can motivate many students to learn.
- Impressions of software: Tappity was overall appealing and interactive. Students would enjoy preforming Science experiments using this app. We both enjoyed using this app and would recommend it to mid-level educators.
- This app passed our software evaluation.
