

## Padlet

Version 97.0

© Wallwisher, Inc.

- **Target Audience:** This app is a digital canvas that lets mid-level students create beautiful projects that are easy to share with the class and teacher and can be used to collaborate on. Padlet would be used more often in the older grades.
- **Types of Software:** This app is compatible on most devices but works best using an iPad. Students can share finished projects with their classmates and teacher using this simple canvas.
- **Curriculum**
  - This app can be used for many reasons such as: Portfolios, lesson plans, timelines, to-do list, photo collages, etc. This tool can be used to inform students the many ways information can be organized.
- **Cost:** This app is free.
  - Padlet Pro- \$99.99/year or \$12.99/month.
  - With Pro you get: Unlimited padlets, 10x bigger uploads, custom domains for your padlets, folders, and priority support.
- **Description of software:** The app works like a piece of paper. First students are given an empty page. Students can customize it however they like. It can be used to make a to-do list, a business plan, a greeting card, a Venn diagram, and many other things.
- **Impressions of software:** Easy to use for students and adults. Only takes a few minutes to make a customized document that is appealing and interactive. Padlet is a great tool that provides students a flexible way of learning. We both enjoyed using this app and would recommend it to mid-level educators.
- This app passed our software evaluation.
