

## SoloLearn

Version 3.0.1

© SoloLearn Inc.

- **Target Audience:** From beginner to pro, this coding app informs children how to code. It is most likely recommended for mid-level students.
- **Types of Software:** This app works best when used on an iPad and also when used individually.
- **Curriculum**
  - SoloLearn is a great app that equips students with the knowledge and experience of technology to fully prepare them for this technology rich world.
- **Cost:** This app is free.
  - SoloLearn Pro allows full access to an ad-free experience with advanced tools for a nominal monthly or annual subscription fee.
  - SoloLearn Pro monthly: \$6.99-\$8.99
  - SoloLearn Pro annual: \$23.99-\$59.99
- **Description of software:** This app allows students to choose from thousands of programming topics to learn coding concepts. Peer support is an essential part of learning and development. This app provides content that is created by the community daily, facilitating efficient and effective coder skill improvement.
- **Impressions of software:** This coding app is a good tool for students to learn how to code. It is aimed at older children; however, the younger grades could easily learn as well. The content was appropriate, and the navigation was easy to control. We both enjoyed using this coding app and would recommend it to mid-level educators.
- This app passed our software evaluation.
