

**Title:** MarcoPolo World School

**Version:** 2.0.2

**Publisher/ Producer / Creator:** MarcoPolo Learning, Inc.

**Target Audience:** 4+

**Type of software:** Discovery Learning. The user can navigate the app and choose what he wants to learn about! There are different options: theater, art, science, math, etc.

**Curriculum(s) (Possible environment(s) and why):** Because this app covers a broad array of topics, the curriculum would depend on what the user or teacher wants! This is ideal for an elementary class that covers all of the subjects presented in the app.

**Cost:** Free 7 day trial, \$7.99/month or \$49.99/year

**Description Paragraph:** You must subscribe to the 7 day free trial to explore the app. First, you get to pick an avatar and then a username. The parent then picks out which subjects their child likes to learn about that way the content gets created for them. There are different headings and as the app opens the avatars explain the meaning of each. You can navigate from different field trips and learn the content inside them. You can also explore the student calendar and different classrooms like the art room or theater room. You can pick on what you learn and build and color things depending on the subject topic.

**Impression and Usage Paragraph:** The graphics and colors are cartoon like which makes the app fun to use. There aren't any in-app purchases. It's very easy to navigate and the avatars explain what to do. As you are playing the games, the avatars tell you about what you are learning that way you can do both at once. Everything makes a sound, so students can click on whatever they want to learn about to see what it does. Since this app has any subject level content, any class could use it in their curriculum!
