Title: Cosmic Kids

Version: 6.020.1

Publisher/Producer/Creator: Cosmic Kids

Target Audience: Elementary

Type(s) of Software: Discovery learning- This app uses specific subjects and uses certain meditation techniques to use with your students. Throughout the course of this app it is teaching your students new information while the student gets to pick out what he/she wants to do.

Curriculum(s): None, specifically used to calm students down.

Cost: $64.99/ year, $9.99/ month

Description: Their whole mission is to make yoga and mindfulness fun for children. This app uses stories, role- play, and a good portion of fun things to do to make yoga and mindfulness more enjoyable for children. This app is primarily designed for younger children, as many of the stories activities are more relatable to younger children.

Impressions/ Use in Class: The app overall was pretty easy to use. The down side was that it wasn't free, and a little on the pricy side. The navigation overall was very smooth and was very pleasing to the naked eye.
