

# App Evaluations

Erika Snow-Howard and Stefanie Kennedy

Zoombini

Technical Education Research Centers, Inc.

Version: 1.0.6

**Target Audience:** The app is recommended for ages 9+. That is a good age range for children to use this app.

**Type of App:** Problem solving. This app encourages students to think critically to solve puzzles. Users have to use logic and analyze data to spot patterns to solve the puzzles.

**Curriculum:** This app would be good for students to use during center times to engage their problem-solving skills.

**Cost:** \$4.99 one time only.

**Software Description:** Zoombini is an app that is recreated from a classic game. It involves problem-solving and critical thinking skills to conquer puzzles and advanced levels.

**Impression of app:** This app seemed fun to use and would be a great way to incorporate play with learning.

Does it pass? Yes.
