Mini Lesson #5 : Mission Impossible

Grade Level: 7th grade

Curriculum topic: Algebraic Equations

**Tech and tools: Presenter Media (Mission Impossible Template) , class desktops,
Powerpoint**

Lesson Summary: Students will get into groups of three and develop a secret spy team name. Each team will report their codename to me and will be given a desktop with their Mission directions. I will compose a Mission Impossible themed Powerpoint with different equations or clues to be solved in order to rescue their teacher from the evil Dr. Brosh . The answer from previous answered equations will be the key to solving the others. Great practice tool for problem solving!
